Measure Money (duration approximately 10 days)	<ul style="list-style-type: none"> Recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value. Find different combinations of coins that equal the same amounts of money. Solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change. 	Power Maths Unit 5 		<ul style="list-style-type: none">

<p>Multiplication and Division</p> <p>(duration approximately 8 days)</p>	<p>Calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (\times), division (\div) and equals (=) signs.</p> <ul style="list-style-type: none"> Solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including 	<p>Power Maths Unit 6</p> <div style="text-align: center;"> </div>	<p>Spine 2</p> <p>Before grouping: 'There are some ____.'</p> <p>After grouping: 'The ____ have been grouped.'</p> <p>'The groups are <u>equal</u> because there are the same number of ____ in each group.'</p> <p>'The groups are <u>unequal</u> because there are a different number of ____ in each group.'</p> <p>2.2 Structures: multiplication representing equal groups</p> <p>'There are ____ equal groups of ____.' 'There are ____ in each group.' 'There are ____ groups of ____.'</p> <p>'There are ____ and ____ and ____ and...' 'We can write this as ____ plus ____ plus ____ plus...'</p> <p>2.3 Times tables: groups of 2 and commutativity (part 1)</p> <p>'Factor times factor is equal to the product.' 'The product is equal to factor times factor.'</p>	<ul style="list-style-type: none"> 2MD-1 Recognise repeated addition contexts, representing them with multiplication equations and calculating the product, within the 2, 5 and 10 multiplication tables.
---	--	--	---	--

problems in contexts.
 Recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables, including recognising odd and even numbers.

2.4 Times tables: groups of 10 and 5.
 And factors of 0 and 1

' ___ is a factor.'

' ___ is a factor.'

'The product of ___ and ___ is ___.'

' ___ is the product of ___ and ___.'

2.5 Commutativity (parts 2) Doubling and halving

Use the following stem sentence (algebraic terms for teachers only): **' a times b can represent a groups of b. It can also represent b groups of a (or a, b times).'**

sentence: **'If there are ___ equal groups, we can use the ___ times table.'**

' ___ is a factor, we can use the ___ times table.'

'There are two groups of ___.'

'There are ___, two times.'

'This is the same as double ___.'

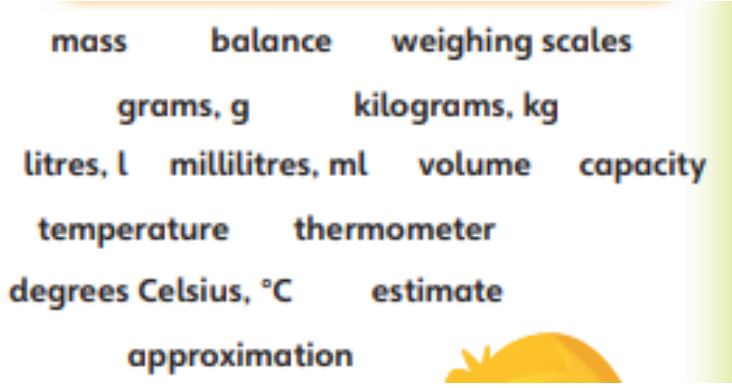

'Double ___ is equal to ___.'

'Ten is double five, so ___ tens is double ___ fives.'

'Five is half of ten, so ___ fives is half of ___ tens.'

			<p>2.6</p> <p>'Factor times factor is equal to the product.'</p> <p>'The product is equal to factor times factor.'</p>	
<p>Multiplication And Division</p> <p>(duration approximately 10 days)</p>	<ul style="list-style-type: none"> • Calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (\times), division (\div) and equals (=) signs. • Solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including problems in contexts. • Recall and use multiplication and division facts for the 	<p>Power Maths unit 7</p> <div style="text-align: center;"> <div style="display: flex; justify-content: space-around; margin-bottom: 5px;"> <div style="border: 1px solid black; border-radius: 10px; padding: 5px 15px;">divide (\div)</div> <div style="border: 1px solid black; border-radius: 10px; padding: 5px 15px;">division (\div)</div> </div> <div style="display: flex; justify-content: space-around; margin-bottom: 5px;"> <div style="border: 1px solid black; border-radius: 10px; padding: 5px 15px;">share</div> <div style="border: 1px solid black; border-radius: 10px; padding: 5px 15px;">group</div> </div> <div style="display: flex; justify-content: space-around; margin-bottom: 10px;"> <div style="border: 1px solid black; border-radius: 10px; padding: 5px 15px;">odd</div> <div style="border: 1px solid black; border-radius: 10px; padding: 5px 15px;">even</div> </div> <div style="border: 1px solid black; border-radius: 10px; padding: 5px 15px; margin: 0 auto; width: 100px;">times-table</div> </div>	<p>Spine 2</p> <p>2.2 Structures: multiplication representing equal groups</p> <p>'There are ___ equal groups of ___.'</p> <p>'There are ___ in each group.'</p> <p>'There are ___ groups of ___.'</p> <p>2.3 Times tables: groups of 2 and commutativity (part 1)</p> <p>'Factor times factor is equal to the product.'</p> <p>'The product is equal to factor times factor.'</p>	<ul style="list-style-type: none"> • MD-2 Relate grouping problems where the number of groups is unknown to multiplication equations with a missing factor, and to division equations (quotitive division).

	<p>2, 5 and 10 multiplication tables, including recognising odd and even numbers</p>		<p>2.4 Times tables: groups of 10 and 5. And factors of 0 and 1</p> <p>' ___ is a factor.' ' ___ is a factor.'
